MESSAGE FROM THE MANAGEMENT

“Education is a once in a lifetime opportunity to open children’s hearts and minds to the unbelievable wonders of the universe.”

Dear Parent

Namaskar!

We are extremely happy that you are considering Sparsh Global School (SGS) for your child's education and future. We have been passionately working in the education domain for more than a decade and have fine-tuned a learning and life-skilling system by integrating teachers, technology and a child centric approach in our pedagogy.

The well-researched pedagogy of Sparsh Global School is very innovative and forward looking and paves the way of successful life as it is focusing on every child. We groom and nurture in a way that they can come out from their comfort zone and face the world bravely, dutifully and independently.

However, in spite of its legacy, we are constantly working hard to evolve better and trying to add many new dimensions to keep up the pace of changing global outlook. Therefore, our focus will always be on academic excellence to help our students get into premium higher education institutions in India and around the world. Several initiatives and strategic partnerships with various national & international organizations are also being put in place, that will allow students to get an overall exposure. We shall enable them to develop and nourish their hidden talents by exposing them to diverse opportunities and varied activities. It is our endeavour to inculcate moral, cultural and spiritual values in our students.

Our group institutions have been ranked amongst the top institutes by various research agencies and amply fulfilling the educational aspirations of the enlightened parents who bring their children to us and we are motivated enough to give the best experience.

We look forward to your constant support to work jointly and seamlessly with a mission to develop well rounded exceptional personalities.

We welcome you at Sparsh family.

With best wishes

MESSAGE FROM THE PRINCIPAL

"It's essential to be more than a teacher, to be an awakener helping students evolve."

Every child has a natural potential to evolve and become a virtuous human being. Just as a seed carries the genetics of a mature plant, a child has the genetics of a mature adult. The world is developing swiftly, and evolution is taking place every moment. It is crucial to nurture a young child with impressive affirmations, progressive attitude, real-life connections, and life-long abilities. The time has arrived to re-examine the teaching-learning process and prepare a child for various risks and uncertainties of life. We need to extend our

horizons and explore alternative prospects that an international curriculum provides. Looking at life through a global lens will help build curious, well-informed, and open-minded global citizens.

With an aim to provide exceptional educational experiences in Greater Noida, for the first time, Sparsh Global School is launching an evolutionary academic programme that imbibes best practices of International (Cambridge International Assessment) and National Curriculum (CBSE) simultaneously. Our curriculum focuses on imparting health and safety awareness, mental and physical well-being, entrepreneurial skills, essential life skills, effective communication, and academic acumen.

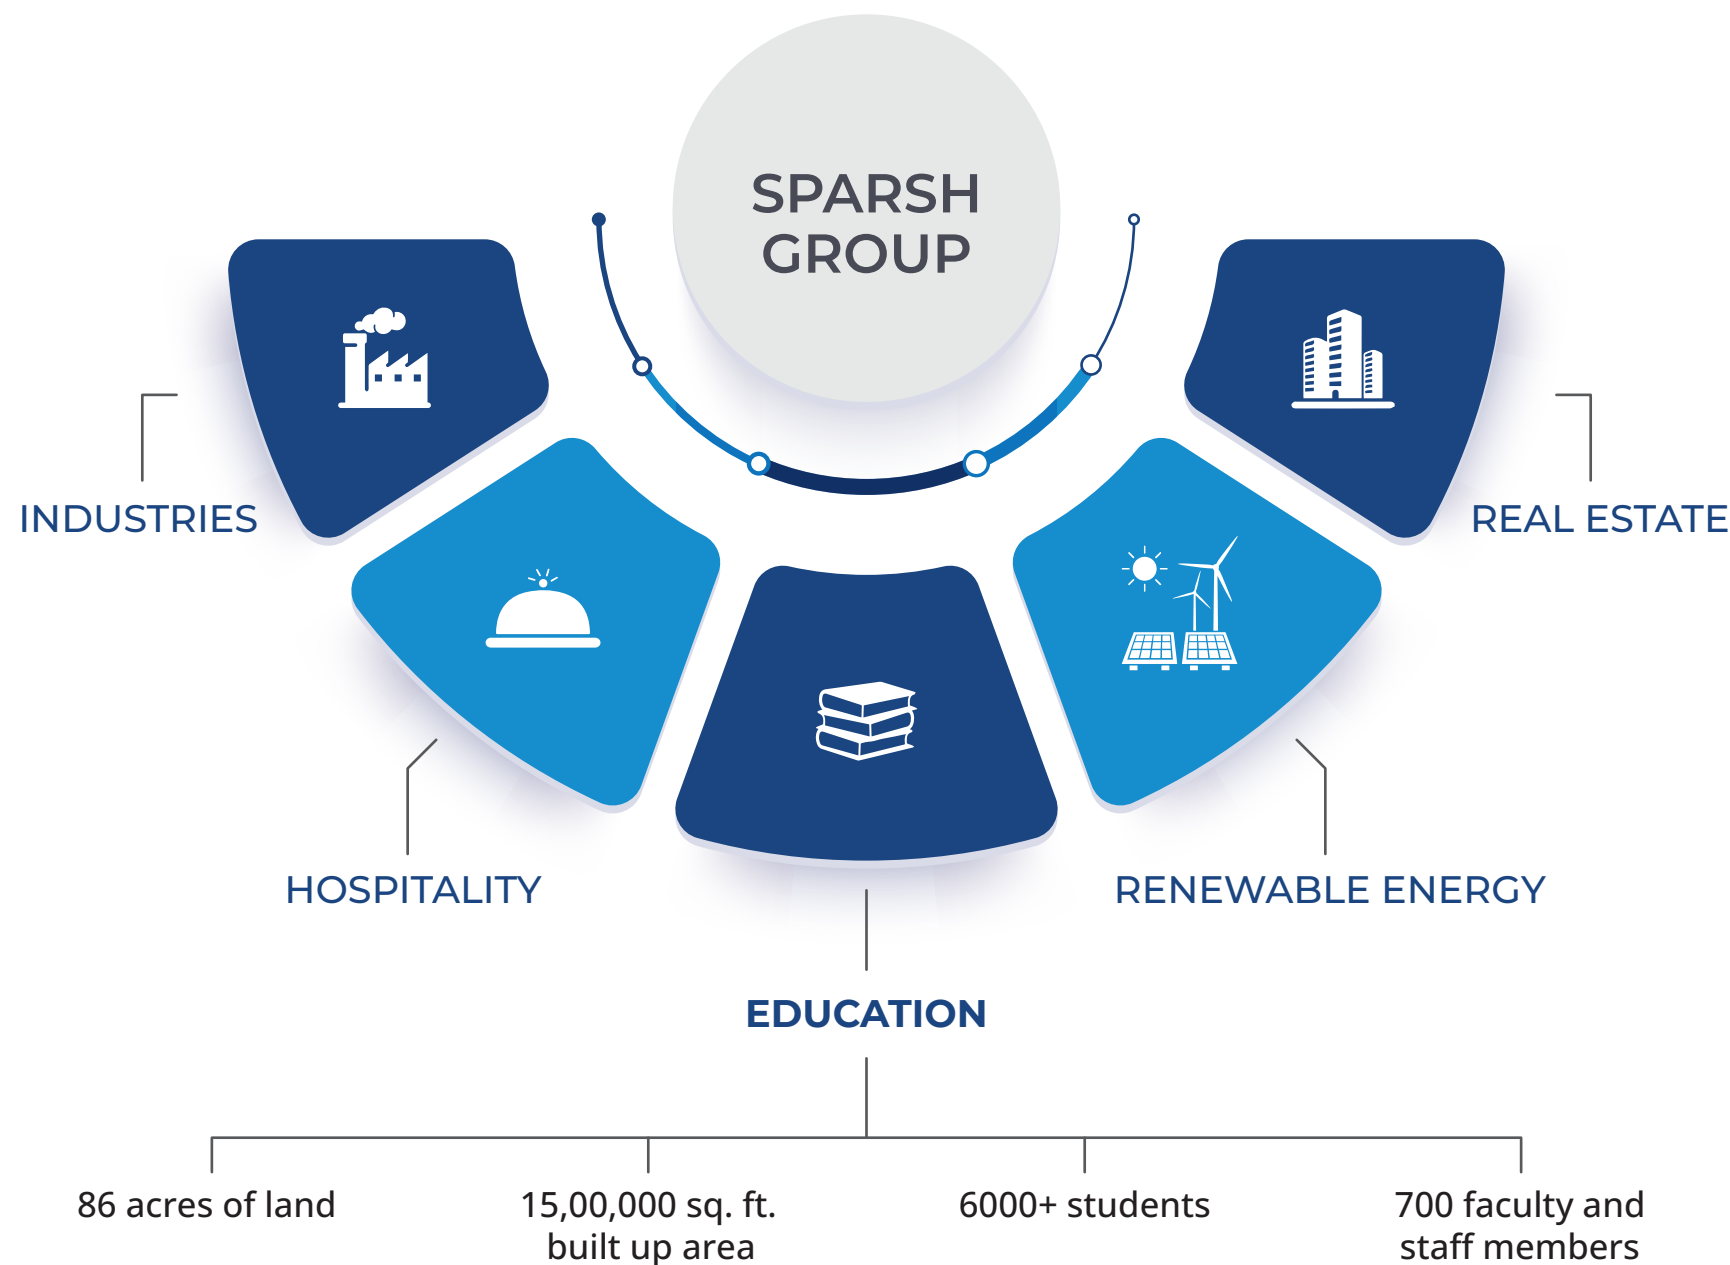

As a futuristic school we emphasize fulfilling the potential of students and nurturing the competencies they need to succeed in higher education, work-life, and to lead contented lives. Such an endeavour is supported by our team of experienced educators, school administrators, and technology-driven learning spaces. We would like to welcome you to join hands with us in our quest for the evolution of education.

Let's nurture your child's unique nature!

Warmest Regards

Ms. Monika Randhawa

SPARSH LEGACY

VISION

Provide student-centric education that helps every child evolve into responsible and successful global citizens.

MISSION

- To provide impetus to its faculty, pupil, and staff by developing their intellectual capabilities, interpersonal, intrapersonal, and technological skills.
- To provide state-of-the-art infrastructure, technology-enabled curriculum, and value-added courses, simulated learning environments, and opportunities for community engagement.

CORE VALUES

To inculcate strong ethical values in our students by making them strong in character, and to face the challenges of the modern life with uprightness and service before self in the quest for excellence.

- | | |
|--------------|-------------------------|
| • Leadership | • Humanity |
| • Courage | • Inclusive |
| • Integrity | • Pursuit of Excellence |

SCHOOL'S PHILOSOPHY

"It is not what is poured into the student, but what is planted that counts and helps them evolve".

Sparsh Global School came into being with the very idea of evolution of children! Transformation is the only constant improviser of our nature, and hence it's imperative for children to keep growing with time. Every day the world is changing and moving towards a phase of enhancement. At Sparsh Global School, we have taken it on our shoulders that every child studying here is not learning the mundane but is progressing every day to be able to achieve far better than just the ordinary. Everything created and developed in Sparsh Global School is with this core thought in mind, the thought of evolution. Right from our architecture to curriculum, a child's all-round development is at the centre of everything!

SPARSH MANDATE

At Sparsh Global School, your child's evolution is at the center of everything that we plan and execute. Providing a life-changing educational experience is what we believe in and our entire eco system is in accordance with this belief. Our student-centric approach is what makes us different from others and our dedication to support every child become extraordinary, has always shown outstanding results. Our pedagogy is defined in a manner that it helps in the complete EVOLVEMENT of your child.

"Inherently, each one of us has the substance within to achieve whatever our goals and dreams define. What is missing from each of us is the training, education, knowledge and insight to utilize what we already have."

— Mark Twain

We all will agree and discuss that quality education is about possibilities. It is about achievement in real life, discovering the inborn talent of the child, excitement in learning new things, bring them out from their comfort zone, being a good human being and a responsible citizen. For most children, schooling is all about scoring marks and not deep understanding, about mundane routine and not enthusiasm, being constrained and not comfortable, fear of failure and not chasing happiness. Sparsh Global School has chosen the path of acquiring knowledge as opposed to schooling.

WHY SPARSH GLOBAL SCHOOL

Do you know of a place where education enables you to find your hidden strengths, individuality and confidence?

How about a sanctuary where the joy of learning is not surpassed by the pressure of building a career?

Have you heard of a place that is continuously evolving with time while resolutely remaining a centre of excellent education?

A PLACE WHERE DREAMS ARE NURTURED

A PLACE WHERE KNOWLEDGE IS EXPERIENTIAL

A PLACE WHERE CURIOSITY IS REWARDED

A PLACE WHERE FRIENDSHIPS ARE MADE FOR LIFE

A PLACE WHERE SPORTS IS A WAY OF LIFE

A PLACE WHERE STUDENTS LEARN FROM TEACHERS THEY TRULY DESERVE

A PLACE WHERE THE STUDENT IS AT THE CENTRE OF ABSOLUTELY EVERYTHING

CURRICULUM & PEDAGOGY

CBSE AND CAMBRIDGE ASSESSMENT INTERNATIONAL EDUCATION

PRE-PRIMARY

School years are the most crucial ones for the growth and development of a child. Pre-primary years mark the beginning of the evolution cycle of a child's life. We have crafted our pre-primary curriculum to create a concrete foundation and help children realize their capabilities. It has a combination of best practices catering to individual requirements and different learning styles that enables the children in meeting their spectrum of needs spanning across the physical, social, intellectual, aesthetic, and cultural domains. A classic blend of free play, multi-sensorial indoor and outdoor activities, self-help skills, socio-emotional skills, and structured learning experiences make these formative years exciting as well as enriching.

PRIMARY: (1ST TO 5TH GRADE)

To discover the core potentials of young children, one needs to push their boundaries of languages, culture and sentiments to include the international playgrounds of the world. We truly wish our students to evolve into global citizens, hence in the primary wing we will introduce them to our International school programme CAIE ie. Cambridge Assessment International Education. It is a flexible curriculum that is offered in combination with the National Curriculum Framework (NCF), adapting to suit our context, culture, values and school ethos. Apart from Literacy, Numeracy and Environmental Studies, the programme introduces 'Global Perspective' that stretches beyond traditional subject boundaries. We emphasize on developing the ability to think critically about a range of global issues where there is always more than one point of view. A more extensive dive into the curriculum strands, these years are full of exploration, high order thinking skills, creative expressions, well-being, impressive language skills, abstract concepts, independent work skills, and above all extraordinary memories of childhood school experiences.

MIDDLE (6TH TO 8TH GRADE)

We understand the developmental uniqueness of this age-group and hence the curriculum embraces learning activities that are appealing, exploratory, challenging and accommodating CBSE and Cambridge Assessment International Education. These are comprehensive and interactive lessons in Mathematics, Language, Arts, Science and Social Studies, Physical Education and Art Education. Following the guidelines of National Education Policy 2020, the curriculum focuses on subject integration, competencies, computational skills and acquiring ethical and moral reasoning.

As the academic rigor increases during these years, there is continued effort and socio-emotional support to help children with the growing expectations and preparing them for high school. Both educators and specialized professionals help children deal with the growing up issues and guide them towards carving niche in the wider spectrum of life.

PEDAGOGY

We are all about your child's evolution which is why our methods offer a holistic strategy to set the young students on to a path of knowledge and growth.

CHILD-CENTRIC APPROACH

Education is fundamental for achieving full human potential, developing an equitable society and promoting national development. To achieve this, our child-centric methodology will concentrate on various parameters of teaching to evolve and awaken the minds of children. We will support out of the box thinking and while they truly benefit from this, it will also play a vital role in shaping the society at large.

Our state-of-the-art infrastructure, carefully identified innovation labs, well deserved focus on art & craft and most importantly the safety and security, we have left no stone unturned in order to ensure that our children are well taken care of.

EXPERIENTIAL LEARNING

A highly effective model in education and it means "Learning By Doing". The goal of experience-based learning involves making students identify their developmental needs and learn something significant or meaningful to support their overall evolution. It will help our students tackle difficult situations and come out with hands-on knowledge on multiple subjects. We want to ensure that all our children get personalized learning for them to be ready for real life challenges.

PROJECT-BASED & ENQUIRY LED LEARNING

We want our students to gain knowledge and skills which will help them in identifying and facing real life challenges and problems. Our instructional strategies would allow students in establishing connect with the subjects rather than just grasping them theoretically. From identifying unique problem to working on it for extended period of time, project-based learning will help our children in acquiring deeper knowledge. Through this method we would be able to bring out the latent skills of children and magnify their strength in every grade.

INTER DISCIPLINARY

The gap between the current state of learning outcomes and what is desirable must be bridged through inter disciplinary learning methods. An inter disciplinary approach lets students learn about two or more subjects in every activity they do, hence enhancing their overall thought process. We are committed on letting every child learn beyond boundaries.

ACTIVE LEARNING

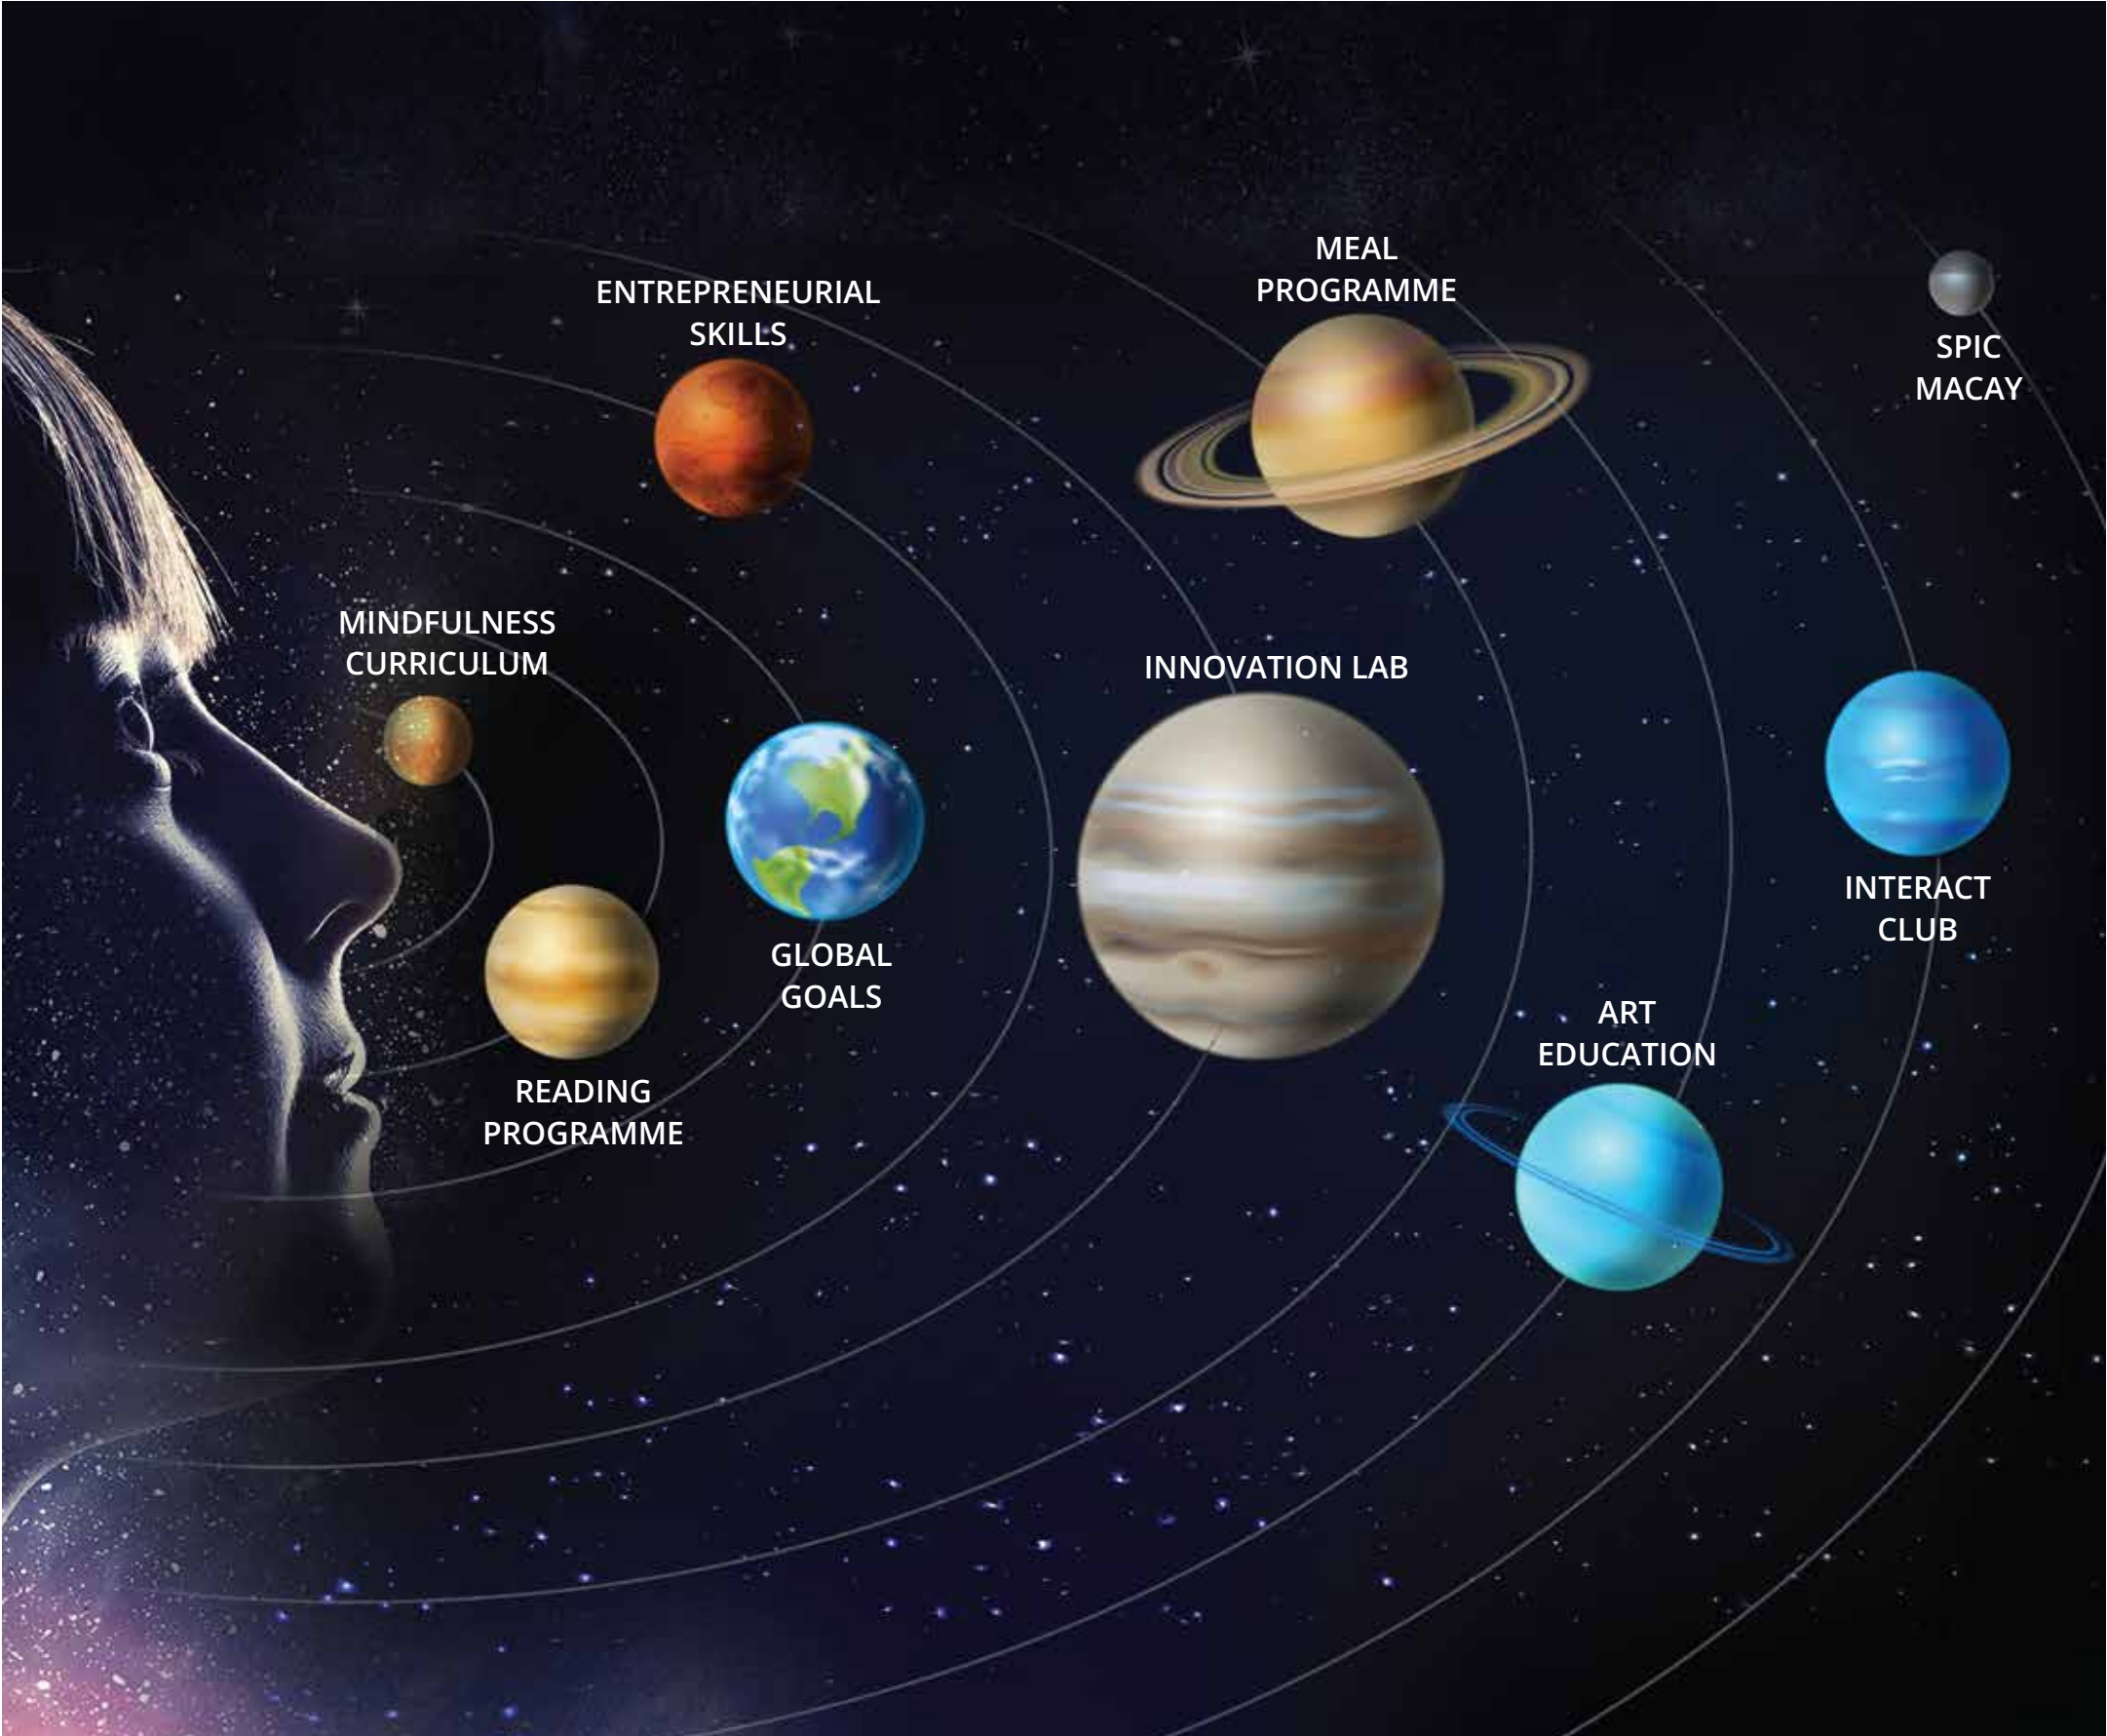

The primary goal of active learning is to engage students while they learn. Through our pedagogy we make sure that the students are not just the passive recipients of knowledge shared by the teachers but are actively involved in discussion and deliberations. Students will be actively involved in the learning process through discussions, problem solving, case studies, role plays and numerous activities. Our active learning method focuses on creative ways to evolve a child efficiently.

BLENDED LEARNING

Considering the rapid advancements in digital learning, we provide a blended learning approach to students. This way they have opportunity to study in class as well as through an online mode using tablets provided by us. We empower our school children with technology and tools for blended learning. As a support, every new admission in the school will be provided a Tablet from primary class onwards in order to prepare students to embrace technology in their early years and equip them with essential skills.

EDUCATION BEYOND THE CLASSROOM

MINDFULNESS CURRICULUM

Sparsh Global School believes in the ideology of keeping children peaceful from within, and for that the overall nurturing of mind, body and soul is required. To help children deal with unprecedented stress and anxiety in ever-changing conditions, we have introduced Mindfulness Classes. It aids mental and physical health, enhances focus, resilience, self-care, empathy, social skills, self-regularisation and patience.

Our initiatives to enhance attention and focus include:

- Social learning programmes
- Counselling and circle time activities
- Time-bound activities
- Health and wellness programmes

READING PROGRAMME

From early phonics development to fluency, our reading programmes are created to enhance the communication skills of students. The programme is created by focusing on the grade of a student so that students are able to communicate efficiently in every grade. It fosters a lifelong love for reading and develops excellent reading skills through varieties of genres to read from.

GLOBAL GOALS AND SHARED RESPONSIBILITIES

Making our students aware of sustainable development goals initiated by the United Nations is a vital element in today's world. We play a pivotal role in making our students understand about these essential goals that need to be achieved by the society and how to play a crucial role in it. These goals are taught according to the grade of the student helping them to evolve consistently.

INNOVATION LAB - STEM LAB

Our Innovation Lab is designed to help develop 21st century skills. The process of designing and constructing projects develops team work, creativity, concentration, creative problem solving and programming skills in students. This imparts practical, activity-based, hands-on knowledge aimed to ignite passion in young students towards Computer Science, Science, Technology, Lego Education, Coding, Robotics, Engineering and Mathematics (CS-STEM) using ICT. Robotics spans Mathematics, Physics, Electronics, Mechanics and Computer Programming.

CODING

Computer Programming: At Sparsh coding is an essential element of every child's education. It will empower children to create through technology and bring their imagination to life. We offer world's leading K- 12 creative coding programme of TYNKER from BYJU'S. Self-paced game-like activities and interactive programme helps children gain knowledge and grow their capabilities with technology. From simple to complex grade appropriate tasks, the programme offers Stem Education hereby imparting essential future ready skills.

ENTREPRENEURIAL SKILLS

For our children to become entrepreneurs and succeed in this complex world, we need to help them develop certain skills at the school level itself. Our endeavour is to motivate children to grow with an enterprising mind-set, accept challenges, become risk-takers and do problem solving with comfort and thoughtfulness. Our International Entrepreneurial Programme exposes them to structured projects at various levels and monitors their progress.

Most importantly the competencies like creativity, curiosity, problem solving, foresight, empathy and adaptability required to succeed in entrepreneurship, are equally suited in STEM education as well. Hence we have integrated STEM and Entrepreneurship modules to give an eco-system of STEM & Entrepreneurship to our students.

ART EDUCATION - MUSIC, DANCE AND ART STUDIOS

Learning does not start with numbers or alphabets. It is the immediate surroundings of the child that becomes a launch pad for learning new things and connecting to the world. The sounds, music, giggles, smiles, lullabies, faces, colours, shapes, touch, things, dance and pictures generate spontaneous response from a child. Understanding the importance of this journey of exploration, imagination, ideation and creation, has inspired us to make art education a pivotal element in our curriculum. Dance, Music, Theatre, Art Craft & Painting, Pottery and Digital Art would allow children to represent their thoughts & ideas and boost their confidence.

MEAL PROGRAMME

Nutrition is the core sustenance of a child's development during their early years and helps them establish an appropriate physical and mental evolution. At Sparsh Global School the meal programme includes nutritious meals that ensure a balanced diet. It also includes guiding students about table etiquette, manners, cooperation and self-help. Eventually students will also benefit from in-house kitchen programme where they will learn non-fire cooking, thus empowering and educating them through real life role-playing activities.

INTERNATIONAL AWARD FOR YOUNG PEOPLE

In our quest to prepare global leaders and citizens of tomorrow by shaping the personality of students by moving them out from their comfort zones, we are working closely with the International Award for Young People. Participants are eligible for three levels (Bronze, Silver and Gold) of the Duke of Edinburgh's International Award in areas of Service, Skills, Physical Recreation & Adventurous Journey.

SPIC MACAY

The school also has a strategic understanding with SPIC MACAY. The purpose is to enrich the quality of formal education by increasing awareness about different aspects of Indian heritage and inspiring young minds to imbibe the values embedded in it.

INTERACT CLUB

Sparsh Global School is an active member of Rotary Club and in the process of constituting Interact Club for the students of age group 12-18 years. This initiative will help develop **leadership skills**, **connect with community leaders**, and benefit from an **international network** and to participate in RYLA (Rotary Youth Leadership Award) & Youth Exchange.

COMMUNITY OUTREACH PROGRAMME

Social service will be an integral part of Sparsh Global School and all our students will be involved in age-appropriate social service projects to sensitize students about environmental hazards, awareness regarding hygiene, health and education.

LEARNING SPACES

- The school campus is an eco-friendly, ultra-modern, spacious and secured infrastructure that enhances the love for school within students.
- The campus size is spread over 8 acres* and a total built up area of 3.55 lakh sq. ft.*
- It comprises of exclusive lab set up, co-curricular set up and various clubs that help explore specific student interest areas.

WORLD CLASS SPORTS INFRASTRUCTURE

Sports play a vital part in personality development and well-being. Sparsh Global School offers an outstanding programme and world class infrastructure of physical education.

A wide range of indoor and outdoor sports facilities are available.

- SQUASH
- BADMINTON
- TABLE TENNIS
- SNOOKER
- CHESS & CARROM
- YOGA
- MULTI-UTILITY GYMNASIUM
- SKATING RINK
- ARCHERY

- SPLASH POOL
- TENNIS
- SOCCER
- CRICKET
- TRACK & FIELD

- BASKETBALL
- VOLLEYBALL
- MINI GOLF-PUTTING GREEN
- HALF OLYMPIC SIZE SWIMMING POOL

LIBRARY

The spacious automated library provides a stimulating environment which helps the students to develop not only reading habits but also improve their research skills. Our school library has been set up with an aim to make it as a vital part of the learning process throughout. It has plenty of space and provides conducive environment which helps all the learners to develop their reading habits. Our library is well stocked with thousands of titles, research publications, newspapers, periodical publications and reference material.

MEDICAL ROOM

School keeps a track of healthcare of all children and there is always a full time nurse and visiting MBBS doctor in two separate infirmaries, to look after not only the daily needs of the children but also to provide comprehensive healthcare. An annual medical card will be issued to children with quarterly check-ups about their overall growth. Additionally, school also has a strategic understanding with a reputed city hospital which is within the radius of 5 kms from school campus for more comprehensive check-ups etc.

CAFETERIA

As with school cafeteria, before and after school snacks are used as a pedagogical tool in teaching children about proper nutrition, table manners and food culture. Snacks are designed to offer variety and take into consideration nutrition recommendations by dietician as well as children's individual needs. Food menu of the school are designed to be suitable for most students and healthy cafeteria for senior and junior wing, give them the comfort of a hygienic space to enjoy their healthy food.

TRANSPORTATION

The school provides fully air-conditioned transport service fitted with GPS, CCTV cameras, fire extinguishers and emergency exits, within the city limits of Noida, Greater Noida and Crossing Republic. The route planning is done for main arterial roads and buses do not go into narrow colony roads. The buses have limited stops to ensure timely arrival at school and reducing the travel time taken by students. Each bus has experienced staff that includes the driver, helper, ayah and a school teacher till the last stop.

SCHOLARSHIPS

ACADEMIC EXCELLENCE

For the class between 6th – 12th, the students who score minimum 90% with minimum 85% attendance and above, Sparsh Global School will be pleased to offer scholarship for a period of **1 year** to the **Top 3** rankers of the class (amongst all sections) in the following manner :

TOP RANK HOLDER	Waiver of 25% of the composite annual tuition fee
SECOND RANK HOLDER	Waiver of 15% of the composite annual tuition fee
THIRD RANK HOLDER	Waiver of 10% of the composite annual tuition fee

EXTRA CURRICULAR ACTIVITIES

School will also extend the scholarship benefits beyond academics and add sports, music and dance as well for those who will bring laurels to school as Gold/ Silver/ Bronze medals in State, National & International championships held during the academic session in the following manner :

	INTERNATIONAL	NATIONAL	STATE
GOLD/ SILVER/ BRONZE MEDAL	Waiver of 25% of the composite annual tuition fee along with Certificate of Excellence	Waiver of 15% of the composite annual tuition fee along with Certificate of Excellence	Waiver of 10% of the composite annual tuition fee along with Certificate of Excellence

SHIKSHA FUND – SCHOLARSHIP FUND

In an another path breaking concept of promoting education and inculcate the habit to sustain the performance of the students, Sparsh Global School has introduced SHIKSHA FUND wherein the rank holders from class VI onwards, not only will get the scholarship benefits in their composite annual tuition fee as per the above mentioned policy but also **SHIKSHA FUND** will further contribute the same percentage of the benefit in their names and shall release it when students pass out from Sparsh Global School after 12th class without any break. In case, if any scholar student, withdraws from the school before class 12th for whatever reason, then he/she would not be eligible for the additional contribution of SHIKSHA FUND. In other words, scholar students have to be with Sparsh Global School till class 12th to get the additional benefits of scholarship through SHIKSHA FUND. This Fund would also be applicable to extra curricular activities as per the above mentioned policy.

SAFETY MEASURES

We follow all the safety measures proposed by CBSE not only to keep a tight vigil with the help of trained security staff and CCTV cameras but also to keep reviewing the security arrangements regularly and conducting drills to reinforce the measures. Some of the security features of Sparsh Global School:

CCTV cameras to cover the whole school premises and 24*7 security cover

Each washroom is closely supervised by attendants

Dedicated SURVEILLANCE ROOM to keep a close eye on all the movements inside/ outside the school campus

Separate washrooms for support staff

The school campus is properly fenced and gated

Designated space for drivers and helpers

Adequate number of trained security personnel

School buses equipped with GPS, speed governors, cameras and first aid kits

No unauthorized person/ visitor is allowed inside the campus without clearance

Daily bus attendance through ERP

Entry through RFID cards

Police verification of the group D staff

Mock drills to train the students and staff members

Fire sprinklers and fire extinguishers as per the norms

BEST WISHES MESSAGES FROM THE LEADERS

"I am very happy to share with you all that Sparsh Global School is coming up in Greater Noida (W) with its new age curriculum which is aligned with new education policy and most importantly it is bringing Entrepreneurship from Grade 1 onwards and setting up an innovation lab which would impart knowledge of coding, 3D printing, artificial intelligence, design thinking etc.

My best wishes to the management, teachers, parents and students of Sparsh Global School to undertake this journey of competency based learning which is completely aligned with new education Policy."

Anurag Tripathi, CBSE Secretary

"Sparsh Global School not only has a Cambridge affiliation but also offers CBSE curriculum. There is a uniqueness about this school in terms of what they have to offer. Be it innovation labs, coding, design thinking, robotics, AI and much more. They also have affiliation with Trinity College of London for fine arts, music & dance and more. I'm very happy that a school with such a vast infrastructure with one of its kinds programmes as offerings has come up in Greater Noida (W). My best wishes are there with the school and I am sure that they are going to contribute well to the society.

Dr Rajiv Kumar, Dean IIM Lucknow, Noida Campus

“Welcome to Sparsh Global, gateway to the global arena. As a parent, what would you like for your child to have? You want them to have space to play, to grow, to evolve. Well, the school has got the best of it all. It has got 8 acres of space. The school has got handpicked faculty who come from the best of backgrounds. They have a lot to offer for all the children. Not just CBSE but an International Curriculum too and many more affiliations where kids get to learn from the best in the world. The school also has got lots of entrepreneurial programmes so that your child gets the right mind-set to think originally and to think independent right from the beginning. There's no better foundation that you can think for your child. My best wishes to the entire team of Sparsh Global School.”

Dr Abha Rishi, CEO, Atal Incubation Centre – BIMTECH

Hello everyone. My name is Dr. Pankaj Gupta, an educational leader. I have come to know that Sparsh Group is launching a new school, Sparsh Global School, right here in Greater Noida. They have a vast campus with state-of-the-art facilities and would be extending all the students with the technological support while using the new ways of learning, which is a blended mode. I am also aware that their focus is on great faculty, great principal and leaders. And above all, their focus is going to be on the holistic education of all the children. I am very sure that this school is going to emerge as a one of its kind school and would make a big difference in this part of the world.

I wish all the very best to everyone for this.

Dr Pankaj Gupta, Dean – OP Jindal University

ADMISSION RULES

AGE CRITERIA

The admissions process at Sparsh Global School has been designed to ensure that students are placed at appropriate grade levels while maintaining the integrity and consistency of the school policies.

AS ON 31ST MARCH OF THE YEAR OF ADMISSION

Pre-Nursery	2 Years ⁺
Nursery	3 Years ⁺
KG	4 Years ⁺
Grade I	5 Years ⁺

THE ADMISSION PROCESS INVOLVES THE FOLLOWING STEPS

- Filling up of enquiry form.
- An interaction with the Parent Relationship Officer and Academic Head followed by a campus tour.
- Registration and application form.
- Submission of the application form with the following documents :
 1. Self-attested photocopy of the original municipal corporation birth certificate.
 2. Two recent passport-size photographs of the child.
 3. Self-attested photocopy of residence proof/ ID proof/ adhaar card.
 4. Report card/ result of the last session attended.
 5. Transfer certificate from the school last attended (if admission is sought for Grade II and above).
 6. Medical Certificate in case of any disability.
 7. Immunization Card.
- Pre - Nursery to Grade I - An interaction of the parents with the Principal.
- Grade II onwards - Entrance test.
- Payment of fees on confirmation of admission (within 7 days).
