

## Earth Day Celebration 2026: Striding Towards a Sustainable Tomorrow

**Circular No:** SGS2026-27/005

**Date:** 17/04/2026

**“Care for the Earth is not merely an inherited duty, but a conscious responsibility we choose to create and uphold.”**

**Dear Parents  
Namaskar!**

At Sparsh Global School, we believe in nurturing environmentally responsible individuals who are conscious of their role in preserving our planet. With this vision, we are delighted to celebrate **Earth Day on Wednesday, 22nd April 2026**, to create awareness and instil a sense of environmental stewardship among our students. An engaging array of thoughtfully curated activities has been planned for the day across different grades, ensuring meaningful participation for every learner.

Earth Day serves as a meaningful reminder that even the smallest, mindful actions—when taken collectively—can lead to significant and lasting change. Through these age-appropriate experiences, we aim to inspire our learners to become compassionate, responsible, and proactive caretakers of the Earth.

### **Planned Activities Across Grades:**

- **Nursery (NUR):** Earth Day Song & “Happy Earth” Playdough Activity
- **LKG:** Seed Bomb Making & Pledge Activity
- **UKG:** Reuse & Recycle Craft
- **Grades I–II:** Clean-Up Drive
- **Grades III–IV:** Slogan Writing
- **Grades V–VIII:** Self-Composed Poem
- **Grades IX–XII:** Essay Writing

### **Please Note:**

All required materials, including colours, paper, and stationery, will be provided by the school.

### **Why This Celebration Matters:**

This initiative aims to sensitise students towards environmental conservation and encourage them to adopt sustainable practices in their daily lives. It provides a platform for them to express their ideas creatively while understanding the importance of protecting natural resources.

We encourage you to motivate your child to participate enthusiastically and contribute meaningfully to this initiative. Your support is vital in reinforcing these values at home and helping us nurture environmentally conscious citizens.

Let us join hands in shaping a greener, healthier, and more sustainable future—because every effort counts.

**Warm regards,  
Dr. Monika Randhawa  
Principal (SGS)  
President- Centre of Excellence  
Academic Research & Training and Development**
